October 4th & 5th 2008
Boyce Park, Plum Borough Pa

Our goal is to provide the community a first hand look at the kind of people that shaped the historical events of the fall of 1758 in Western Pennsylvania.

We hope to accomplish, with the support of the hundreds of re-enactors, interpreters, sutlers, educators, historians of the French & Indian War period.

Which will take place in the woodland's setting of Boyce Park.

We are planning a rich historical program which we plan to include some of the premier speakers on the topics selected. We will be involving many community groups in the event.

We hope for all who participate to enjoy the experience!
